## **DETAILED ACTION**

### ***Acknowledgments***

1. This office action is in response to the after-final amendment filed on 5/6/2011.
2. In the reply, the applicant amended claim 23 and cancelled claim 24. Claims 1-3, 7, 9-16, 18-20 were previously allowed.
3. Thus, claims 1-3, 7, 9-16, 18-20, 23 are pending for examination.

### ***ALLOWANCE***

4. Claims 1-3, 7, 9-16, 18-20, 23 are allowed.
5. The following is an examiner's statement of reasons for allowance: the subject matter of the independent claim could either not be found or was not suggested in the prior art of record. The prior art does not disclose or render obvious the combination as claimed specifically including a syringe having a spring retainer comprising a housing having first and second body members adapted to releasably maintain the spring in a compressed state until rotational disengagement of the first and second body members allows decompression of the spring to facilitate retraction of the retractable needle into the syringe barrel, wherein the second body member is adapted to be engageable by the syringe plunger so that depression of the plunger triggers the rotational disengagement of the first and second body member in combination with the other elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3767

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
